The present Response is intended to be fully responsive to all points of rejection raised by the Examiner and is believed to place the application in condition for allowance. Favorable reconsideration and allowance of this application is respectfully requested. Applicant respectfully requests reconsideration and withdrawal of the Examiner's rejections in view of the foregoing amendments and following remarks.

**CLAIM REJECTIONS – 35 U.S.C. § 101****Claims 11-23**

The Examiner has rejected claims 11-23 under 35 U.S.C. § 101 as being directed to non-statutory subject matter in light of the interim guidelines.

In particular, the Examiner stated:

The claims to not provide a transformation, nor do they provide a useful concrete and tangible result that is practically applied since designing is simply an abstraction.<sup>1</sup>

**Response:**

In a brief telephone conference with Examiner Essama Omgba conducted on August 21, the Examiner indicated that the concept of “designing” is abstract and less abstract words like “providing” should be used. Consequently, applicants have amended the claims accordingly.

The Examiner also indicated the first sentence on page 6 of the originally filed application was unnecessary. Consequently, applicants have amended the specification to omit such language.
